Forecast for Monday 20 Mar 2023

Weather: Overcast overnight with some light rain and drizzle, though this turning patchy towards dawn, initially falling as snow above 600-700m. A largely dull, cloudy day with some patchy light rain and drizzle for the morning, gradually turning more persistent from the south during the afternoon and evening.

Chance of cloud-free hill tops above 800m: 30% at first becoming 10% or less for the afternoon.

Low cloud and visibility: Good, becoming moderate or poor in rain and drizzle, very poor in initial summit snow and within cloud with bases becoming quite extensive down to 400m for the afternoon, with patches lower down in north.

Met Office Aberdeen Meteorologist's View

Hill fog becoming extensive in north for the afternoon.

Forecast for Tuesday 21 Mar 2023

Weather: Overcast start with periods of rain, perhaps heavy at times, turning to snow above 900-1000m, then clearing as a mix of sunshine and isolated showers feed erratically from the west around late morning. Further area of rain and snow feeding from the west late evening.

Maximum wind: Southerly 15-20 mph with gusts reaching 30 mph across more exposed ridges and summits

Chance of cloud-free hill tops above 800m: 10% becoming 80-90% for the afternoon, lowering again during late evening

Low cloud and visibility: Good, becoming moderate or poor in rain, very poor in snow and within cloud with bases extensive down to 400m at first before breaking and lifting for the afternoon.

Temperature: **Glens:** Plus 3 Celsius increasing 11 Celsius for the afternoon
At 800m: Plus 2-3 Celsius
Freezing level: Around 1000m by day
